Mansi GUPTA

Bachelor Of Computer Application - Student (2nd year, 3rd Semester)

Contact

Chinhat, Lucknow, India
+91 93365 85116
promansi12@gmail.com

Objective

With a strong interest in ethical hacking and machine learning development. Experienced in conducting rigorous penetration testing and vulnerability assessments to fortify organizational cybersecurity frameworks. Skilled in applying advanced machine learning algorithms to develop predictive models that optimize business operations and decision-making processes. Committed to continuous learning and staying abreast of industry trends to deliver innovative solutions that meet evolving cybersecurity challenges.

Education

Bachelor Of Computer Application
Modern Girls' College Of Professional Studies
Lucknow, India

High School & Intermediate
Rani Laxmi Bai Memorial School
Lucknow, India

Training/Certifications

1) Cyber Security Training
Trainee • at Acmegrade

2) Techiesta 7.0
Coordinator • hosted by Modern Girls' College of Professional Studies

3) Prism Techfest
Candidate • Coding Contest and Quiz • Hosted By University of Lucknow

Key Skills

1) SQL (DDL, DML, TCL)
2) C (DSA)
3) Python
4) Frontend Web Development (Basic)
5) Linux Operating System
6) Data Cleaning & Preprocessing (Jupyter Notebook)
7) Model Designing ML (PyCharm)
8) Leadership (College Coordinator)
9) Team Management
10) Communiation (English, Hindi)

Projects

1) Car Price Prediction Web Application (Machine Learning)
Developed a Car Price Prediction model using Linear Regression, leveraging Python libraries (pandas, numpy, scikit-learn) to estimate vehicle prices.

2) Live VideoCam Face Detection Model (Machine Learning)
A live video face detection model uses algorithms like Haar cascades or CNNs to quickly locate and classify human faces in real-time video.
